The image shows a Beamer presentation slide. At the top, there is a navigation bar with icons for a cat, a person, a speech bubble, a 'Present' button, and a 'Share' button. Below this is a status bar with a plus icon, 'Background', 'Layout', 'Theme', and 'Transition' options. A timeline at the top of the slide content area shows slides 1 through 8. The slide title is 'Next meeting'. The main content area contains a bulleted list of milestones for the next three months, starting with January and February. The slide is displayed in a window with a title bar at the top and a system tray at the bottom.

6 CERN/ATLAS/CMS possible donations

- We are exploring the feasibility of receiving material as donations
 - in order to saving instrumentation - multitenants, scopes and such
- Together with S. Mele (CERN) we are exploring legal and practical issues
 - shipping and custom costs would have to be covered by a third party
- We'd need some help on exploring the operational issues
